

BUSINESS MEMORANDUM

TO: Content Strategy Team

FROM: Data Analysis Team

DATE: July 14, 2026

SUBJECT: Insights and Trends from Netflix Content Catalog

EXECUTIVE SUMMARY

The objective of this analysis was to evaluate the Netflix content library to identify distribution trends, release patterns, and genre popularity. This data-driven approach provides a comprehensive overview of content strategy, helping to understand how the platform's library has evolved over time.

KEY BUSINESS INSIGHTS

1. Content Distribution:

- Analysis shows a clear distribution ratio between Movies and TV Shows, providing insight into user preference and platform focus.

2. Release Trends:

- Identified peak years for content production and additions to the platform, highlighting periods of aggressive growth.

3. Genre Popularity:

- Categorized content by genre to map popular categories, offering a clear framework for understanding audience engagement across the global catalog.

BUSINESS RECOMMENDATION

This analysis serves as a foundation for content acquisition and scheduling strategies. By leveraging these insights, the platform can:

- Align content release schedules with historical peak trends.
- Optimize the mix of Movies vs. TV Shows based on historical library growth.
- Target high-performing genres to maximize viewer engagement.
